## PROFILE

IT specialist with practical experience in programming (Python, JavaScript, PHP), technical support, and DevOps tools (Docker, Google Cloud). Skilled in solving complex problems, automating processes, and maintaining system stability across diverse environments. Effective both in team settings and working independently, with a strong ability to quickly adapt to new technologies. I am seeking a role that allows me to grow as an IT Developer, Helpdesk specialist, or DevOps engineer.

---

## PROFESSIONAL EXPERIENCE

### Currency Exchange Office “Pecunia” | Suchy Las, Poznań
